

Cloud Security Alliance Research

Focus on trust and assurance

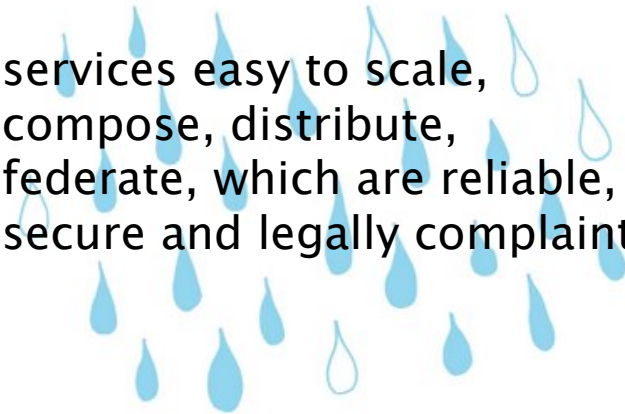

**Daniele Catteddu,
Managing Director EMEA, CSA**

CSA Mission Statement:

“to promote the use of best practices for providing security assurance within Cloud Computing, and provide education on the uses of Cloud Computing to help secure all other forms of computing.”

FUTURE CLOUD

services easy to scale,
compose, distribute,
federate, which are reliable,
secure and legally complaint

OUR Challenges:

- Portability & Interoperability
- Governance & Compliance
- Security
- Transparency

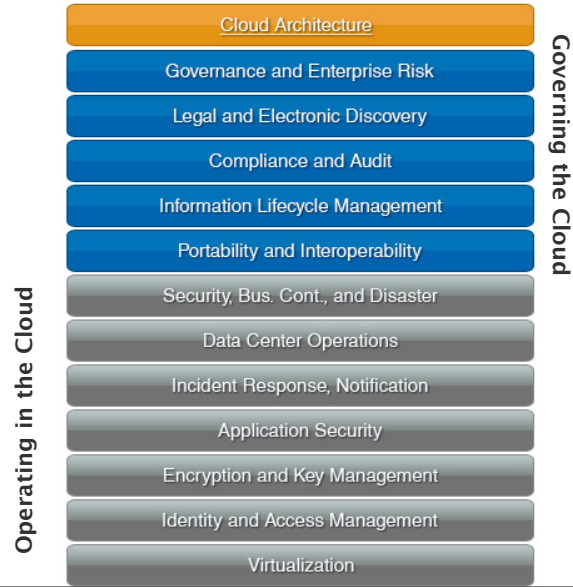

Critical areas for future cloud?

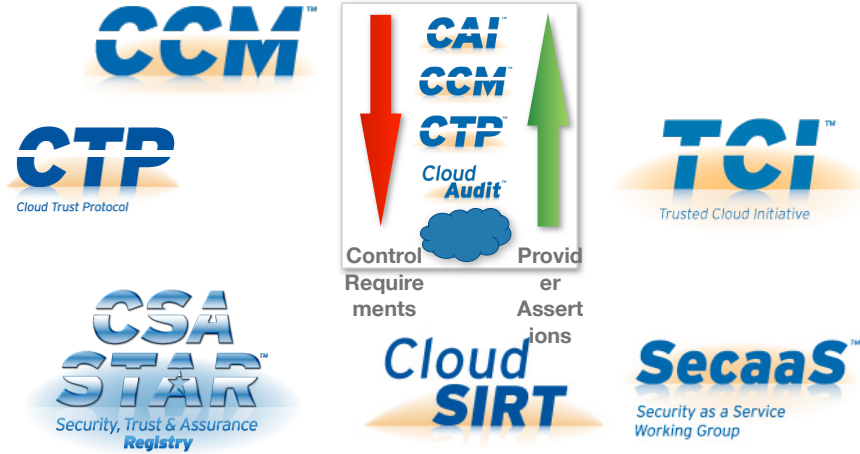

- Trust: Visibility+Control
- Assurance
- Policy interoperability
- Technical interoperability
- Identity interoperability
- Security interoperability

CSA areas of Research

Relevant for today's discussion

Help us secure cloud computing
